

As we continue to learn from home, while schools are closed to minimize exposure to the coronavirus, here are some helpful hints.

COMPUTER CARE

If you received a laptop from school, please handle it with care. Use it every school day to access your learning materials, communicate with your teachers, and share your learning. We will get it back from you and continue using it at school once the school closures have ended.

SCHOOL CLOSURE UPDATES

Please visit the [SLC School District's homepage](#) often as updates will be posted there. The link to the updates is on the homepage picture.

STUDENT EMAIL

All students have a district email that follows this pattern:

- Student Name: **Juan Gonzalez**; student ID number: 123**456**
- Email: juan.g456@slcstudents.org

Contact your teacher if you don't know your password. Access your email by going to your online apps (see below) and clicking Outlook.

STUDENT ONLINE APPS

On [Edison's homepage](#), you will see an Online Student Resources link under the top picture, on the right side. Click there to see our student apps. Login with your school login and password.

If that does not work for you, try this: Go to <https://myapps.microsoft.com>. Login with your student email address and password. You will then see all your online student apps which are accessible to you.

SCHOOL DAY EXPECTATIONS

School from home will be structured by your homeroom teacher and will vary from class to class. However, a few items will be similar.

- Students will be expected to read for at least 20 minutes each day
- Students will be expected to work on Lexia, ST Math, and other learning programs as part of their home study
- Physical activity should be part of each student's day, as well as mindfulness and relaxation activities as needed

- Second- to fifth-grade students will be expected to do about four hours of school work each school day (3 hours for K-1 students)
- Teachers will set office hours when you can reach them in real time to discuss your work, questions, or concerns. They will communicate this time with their students.

ONLINE READING RESOURCES

Your teachers will be sharing reading materials and resources with you in their plans. You can also find online books through the [Edison Library page](#) by clicking EPIC (class login code is kvy1799) or clicking SORA (login with your computer login and password).
